

SFX RANGE

SFX AIRMIST™

Airmist™, with patented IPE (Intense Plus Events) facility, enables programmable fragrance intensity, by allowing users to programme up to 3 periods per day for enhanced fragrance delivery to suit location requirements. Airmist™ delivers more neutraliser and fragrance with less propellant. The compact design enhances the image of the washroom. This product carries a 2 year warranty.

SFX QUADRASAN

The Quadrasan dispenser provides the most effective automatic hygiene systems that ensure clean sanitised and odour free toilets and urinals 24hrs a day. 99% of bacteria and germs are killed in the first flush. Hard water deposits are actively attacked while scale and unsightly stains are prevented, eliminating the breeding ground of odour causing bacteria. This product carries a 2 year warranty.

SFX SAFESEAT

Even seemingly clean surfaces can harbour vast numbers of harmful bacteria. Easy to use Safeseat provides the individual with the opportunity to clean and sanitise surfaces such as toilet seats effective against all harmful bacteria commonly found on and around toilet fixtures. The product carries a 2 year warranty.

SFX HXII

The HXII soap dispenser has the ability to dispense liquid, foam, antibac liquid, antibac foam and waterless gel formulations through a sealed cartridge and pump system all in one dispenser. The 0,4ml pump has the ability to dispense 1750 applications from the 700ml cartridge. A unique feature of the manual unit is the retrofit counter designed for back of house hospitality and medical applications that registers the number of hand washes over a period of time. A retrofit elbow bracket is also available for the manual unit.

SFX FEMCARE

The Femcare system has revolutionised sanitary disposal by introducing the no touch sensor unit which is a first in the continued endeavour to create a no touch environment. The one piece slim line design insures installation is possible in even the smallest cubicle. A wall mounting option will prevent cross contamination from taking place. Colour coded accountability system to ensure that the bin is serviced. Manual option also available.

SFX WASTECARE

The newly developed Wastecare bin once again brings an industry first innovation to the market to take care of unsightly paper waste bins, where liners protrude over the side.

With its stylish, easy to clean flowing lines that will compliment any washroom, the waste care bin has a few unique and novel features, the most interesting being a hidden housing with the bin which conveniently holds a roll of continuous liners, which makes for easy bag removal and reload. It also has the ability to have the waste manually compacted into itself allowing a greater volume of waste to be disposed of. A Wastecare colour co-ordinated chute system made from 2.mm injection moulded ABS plastic and a quick release lock mechanism adds a new value to Wastecare as we know it.

SFX AUTOTOWEL

The Autotowel is a truly "hands free" controlled paper towel system and is more cost effective than a convention free flowing dispenser. The paper length is electronically adjusted and the no touch auto feed mechanism with controlled second sheet delivery, reduces the possibility of waste build in the washroom. The Autotowel can accommodate a 2 ply laminated paper towel and also has the option of a manual feed unit.
