**AUTOMATIC DOSING LIQUID FOR URINALS AND TOILETS.**

**Innu-Science**  
Nature Powered

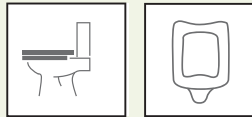

### Description

**Nu-Flush™** is a biotechnology-based product for the treating of urinals and toilets. The biological component continually eliminates bad smells and reduces the formation of uric acid build-up whilst enhancing the biodegradation of organic matter in downstream effluent.

### Applications

**Nu-Flush™** is ideal for treating toilets and urinals automatically dosed, especially if these are not connected to a municipal system which will enhance the performance of septic tanks and french drains.

**FOR PROFESSIONAL USE.**

### Directions

**Nu-Flush™** comes ready to use. It is dosed through automated equipment.

**AUTOMATIC DOSING LIQUID FOR URINALS AND TOILETS.**

## Respect for the environment

### Tips for being greener

Do not use formaldehyde-based products or fragrances to try to mask odour problems ■ Never use chlorinated cleaners or products (bleach) ■ Do not use disinfectants to try to resolve hygiene and odour problems ■ Train staff on the environmental impact of their work.

### Environmental benefits

Controls odour problems without the need for harmful chemical products ■ Safe for pipes and septic systems : helps systems work better and last longer. Fits perfectly into any organization's efforts to be more eco-responsible by going green.

## Technology

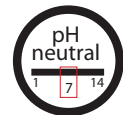

The technology behind **Nu-Flush™** is based on natural bacterial cultures that are specially selected to quickly decompose organic matter, maintaining a healthy bacterial flora in septic tanks, french drains, toilets and urinals. By preventing the growth of bacteria that produce hydrogen sulfide (H<sub>2</sub>S), our bacterial cultures prevent conditions such as bad smells and improper functioning of septic tanks, french drains, toilets and urinals. When organic matter is broken down faster and the septic system is healthier in general, both the tank and the disposal field can achieve peak operating conditions.

## Composition

<5% non-ionic surfactants, bacterial cultures, fragrance, preservative.

## Properties

Colourless liquid.

## Regulatory compliance

**Regulation (EC) No 648/2004 on Detergents**  
**Directive 1999/45/EC and Amendments on Dangerous Preparations**  
**Regulation (EC) No 1907/2006, Annex II on Safety Data Sheets**  
**REACH Regulation (EC) No 1907/2006**

This preparation is not classified as hazardous according to European Directive 1999/45/EC and its amendments. Not regulated by the regulation on transport of dangerous goods.

**Material safety data sheet available upon request. Read it before using this product.**

**Safety phrases: S25 - Avoid contact with eyes. S26 - In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.**
